

Writing Rules and Regulations The Process

Jeff Rosa

Executive Director, Ohio Athletic Trainers Board

- Process to adopt rules and regulations differs in each State
- Underlying principles remain the same

BOARDS AT REGULATORY CONFERENCE STATE ATHLETIC TRAINER LEADERS AND STATE REGULATORY BOARDS AT REGULATORY

- Statutes are adopted by the legislature
- Rules are adopted by the Board
- Rules clarify what's in the statute
- Board must have statutory authority to adopt a rule

- Mission of the Board is public protection
- Don't regulate in a vacuum
 - Board must be mindful of impact on the profession
 - Overregulation is just as bad as underregulation

- Role of Board is to <u>effectively</u> & <u>efficiently</u> regulate practice
- Identify and eliminate unneeded regulatory barriers
- Is this regulatory change worth the negative impact on the profession?
 - Board <u>can't</u> regulate in a vacuum

- Use an open process during rule review and development
 - Board needs stakeholder input to make sure bad rules don't get adopted
 - 5 member board can't represent entire depth and breath of practice in the state
 - Unintended consequences might be missed without input from those impacted by rules

- Be forward thinking when drafting language
 - Eliminate need to modify current rules for every small change in practice
- Example from Ohio dealing with student exemption for international students
 - Student enrolled in AT program in a country that entered into MRA with BOC, NOT
 - Student enrolled in AT program in Canada or Ireland

- Rules carry the force of law
- Drafting errors can have serious consequences
 - Missing comma that changes grammatical meaning could impact how rule is applied
 - Major legal difference between "shall" and "may"

BOARDS AT REGULATORY CONFERENCE STATE ATHLETIC TRAINER LEADERS AND STATE REGULATORY BOARDS AT REGULATORY

- Work with your stakeholders
 - Not just your state AT association
 - Professional & post-professional AT programs in your state
 - CAATE
 - BOC
 - Other professions
 - Other state agencies
 - Legislature

Thank You
